

INCIDENT RESPONSE SERVICES

SERVICES OVERVIEW

GreyCastle Security is the industry's leading provider of cybersecurity risk assessment, mitigation and certification readiness services. In a world where cybercrime has reached epic proportions, a business' ability to respond to security incidents can mean the difference between effective recovery and total disaster. The objectives of these services are as follows:

- ✓ Develop an effective Incident Response program
- ✓ Minimize impact and damages from security breaches and incidents
- ✓ Partner with senior management to make intelligent and timely business decisions
- ✓ Expedite recovery from incidents
- ✓ Ensure compliance with required federal, statutory and commercial regulations relating to data breach notification and reporting
